Executive summary

What your answers show

Optimised

Test Profile, your customer journey scores 99 out of 100. Your journey is solid. The foundations are in place, so fine-tuning is what brings the next gains - not rebuilding.

Your strongest stage is Lead Sources & Discovery at 100/100. The stage costing you most right now is Booking Process at 89/100 - which is where this report starts.

Every finding is drawn from what you told us. Nothing here is generic: the gaps are the ones your answers revealed, and the recommendations are ordered by what a fix is worth to you.

Your top three priorities

Priority 1

Booking Process

89/100 · Strong

You recognise 6 points of friction in your booking process, and each one loses people who had already decided to book.

Priority 2

Lead Sources & Discovery

100/100 · Strong

You're findable. People looking for what you do can see you, trust you and reach you without hunting - which means the rest of your journey gets a healthy flow of enquiries to work with.

Priority 3

Lead Response

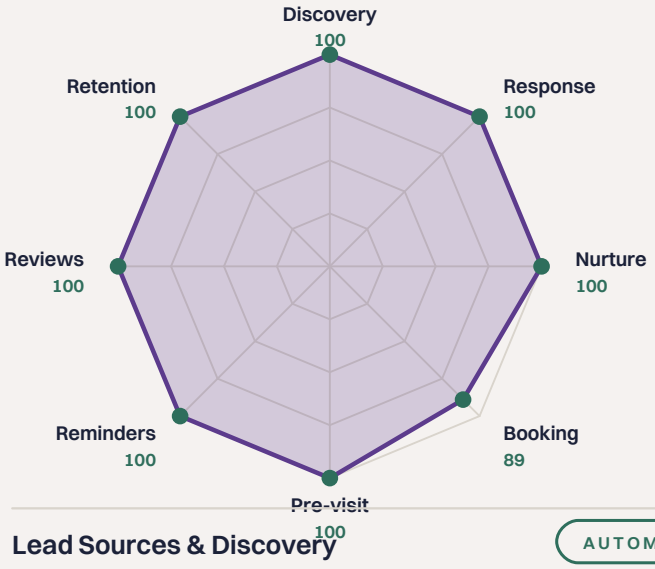

100/100 · Strong

You answer fast and consistently, which means the enquiries you work hard to generate actually turn into bookings rather than cooling off in an inbox.

The next page maps all eight stages of your journey. From there, each stage has a page of its own: what's working, what's missing, and exactly what to do about it - followed by your 90-day focus cycle.

All eight stages

Your journey at a glance

How each stage is being run

AUTOMATED happens without anyone thinking about it

SYSTEMISED there is a process, but it still needs you

MANUAL depends on somebody remembering

Manual is under 50, Systemised is 50 to 74, Automated is 75 and over.

Lead Sources & Discovery

AUTOMATED — 100/100

You're findable. People looking for what you do can see you, trust you and reach you without hunting - which means the rest of your journey gets a healthy flow of enquiries to work with.

Lead Response

AUTOMATED — 100/100

You answer fast and consistently, which means the enquiries you work hard to generate actually turn into bookings rather than cooling off in an inbox.

Lead Nurture & Follow-Up

AUTOMATED — 100/100

You follow up properly, so interest that doesn't convert on day one still becomes a booking later. That's revenue most businesses in your sector simply leave behind.

Booking Process

AUTOMATED — 89/100

You recognise 6 points of friction in your booking process, and each one loses people who had already decided to book.

Confirmation & Pre-Appointment

AUTOMATED — 100/100

Clients arrive knowing exactly what to expect, prepared and confident. That shows up as fewer no-shows, calmer appointments and better first impressions.

Reminders & No-Show Prevention

AUTOMATED — 100/100

Your reminder system is doing its job, and the diary you fill is the diary you actually work. That's straight profit protected.

Reviews & Reputation

AUTOMATED — 100/100

Your reputation is compounding. Reviews arrive consistently, you respond to them, and new clients arrive already trusting you.

Retention & Re-engagement

AUTOMATED — 100/100

You don't yet know what a client is worth over their lifetime, so there's no way to judge what any gap in this journey is actually costing you.

One number for the next three months

Your 90-day focus

YOUR FOCUS KPI

Bookings taken without you

The share of appointments booked online, at any hour, with no messages in between

TODAY

Online booking: yes

IN 90 DAYS

80%+ of bookings taken online, with no messages first

Why this number matters most for you

Most personal appointments are booked outside working hours. Every booking that needs you is one you can lose to timing.

Booking that works at any hour means the diary fills while you sleep, and it takes the back-and-forth messaging out of your evenings. You stop being the bottleneck in your own business.

How this number was chosen

Each of the eight stages owns one number. Booking Process scored 89 out of 100, and because it carries more weight in your overall score than most, that gap is costing you more than any other single stage. So the number for this quarter is Bookings taken without you.

How to measure it

Track the following data: what share of your appointments the client booked themselves, without a single message passing between you first.

Where to get it

If you use a booking system, open its reports and look for a split between bookings the client made online and bookings you typed in yourself. Most systems show this somewhere in reports or statistics. If yours does not, keep a tally for a fortnight: make a mark every time you enter a booking by hand, and count the total bookings over the same fortnight.

How often to check

Once a month. If you are tallying by hand instead, do a fortnight of it once a quarter rather than all year.

Priority 1

Booking Process

AUTOMATED 89/100

What's working

- Clients book themselves, so nothing waits on you and no enquiry is lost to timing.
- Booking takes a couple of taps, so decided clients stay decided.
- Clients can book at any hour, so you capture the evening and weekend decisions most businesses miss.

The gaps

- You recognise 6 points of friction in your booking process, and each one loses people who had already decided to book.

What to do

QUICK WIN

Book yourself in on your own phone, from your Instagram bio, timing each step. Remove the first thing that made you pause - usually a question the client shouldn't have to ask.

Every step removed converts more of the people who already wanted to book, at no extra marketing cost.

THE NEXT LEVEL · BUILT WITH YOU

Booking that behaves like a receptionist rather than a form: it offers the right slot for the treatment, takes the deposit, and handles the moving and rescheduling without you. Slots that free up are offered to the people most likely to take them, so the gaps close themselves.

Tools

Start here

- One booking link, used in every bio, every listing and every reply.
- Deposits switched on, if your system can take them.

The joined-up version

One diary, one link, open at any hour, taking the deposit at the point of booking so the slot is held properly.

Tools on the market

Fresha
Online booking, deposits and client records

Phorest
Booking and client management built for salons and clinics

Timely
Booking with consultation forms and deposits

Priority 2

Lead Sources & Discovery

AUTOMATED 100/100

What's working

- New clients reach you through 7 different routes, so no single platform can switch your enquiries off overnight.
- Your Google Business Profile is doing the heavy lifting in local search, which is where most 'near me' enquiries begin.
- 100+ Google reviews gives new clients the social proof they need before they'll enquire.

The gaps

- No gaps recorded for this stage.

What to do

THE NEXT LEVEL · BUILT WITH YOU

An assistant that keeps your listings current on its own: hours, services and prices the same everywhere, new photos posted without you remembering, and questions on your Google listing answered as they arrive. Every enquiry is tagged with where it came from, so you stop guessing which channel is earning its place.

Tools

Start here

- Google Business Profile, claimed and filled in properly. It is free and it is where most local searches end up.
- A single page per service on the site you already have, each one with a way to book on it.

The joined-up version

The booking system holds the diary, the Google listing points straight at it, and every service page uses the same booking link, so there is one route in however somebody finds you.

Tools on the market

Google Business Profile
Your listing in search and maps, with photos, services and booking

Fresha
Booking and client records, widely used in treatment businesses

Booksy
Booking with its own marketplace, so the listing brings enquiries too

The plan

Week by week

Everything from the roadmap, in the order to do it. All of it moves Bookings taken without you.

1 Phase one

Weeks 1-2

QUICK WIN

Booking

Book yourself in on your own phone, from your Instagram bio, timing each step. Remove the first thing that made you pause - usually a question the client shouldn't have to ask.

2 Phase two

Weeks 3-6

3 Phase three

Weeks 7-12

THREE THINGS YOU CAN DO THIS WEEK

- Book yourself in on your own phone, from your Instagram bio, timing each step. Remove the first thing that made you pause - usually a question the client shouldn't have to ask.

One screen, once a month

What to record

Three lists is enough. A spreadsheet with three tabs will carry you through the first ninety days; a booking system or a CRM can fill them in for you later. The fields in purple are the ones that feed your focus number.

Enquiries

- **Date received**
- **Where they came from**
- Time of first reply
- **Did they book**

Appointments

- Date and treatment
- New or returning
- Attended, cancelled or missed
- Rebooked before leaving

Clients

- Name and contact
- First visit date
- Last visit date
- Review left

Week 3			
Week 4			

After this quarter

Your next cycle

These stages are not in the plan on purpose. A quarter spent on everything is a quarter spent on nothing. They are here so you know what is waiting, not so you start on them now.

Lead Response

AUTOMATED

100/100

You answer fast and consistently, which means the enquiries you work hard to generate actually turn into bookings rather than cooling off in an inbox.

Lead Nurture & Follow-Up

AUTOMATED

100/100

You follow up properly, so interest that doesn't convert on day one still becomes a booking later. That's revenue most businesses in your sector simply leave behind.

Confirmation & Pre-Appointment

AUTOMATED

100/100

Clients arrive knowing exactly what to expect, prepared and confident. That shows up as fewer no-shows, calmer appointments and better first impressions.

Reminders & No-Show Prevention

AUTOMATED

100/100

Your reminder system is doing its job, and the diary you fill is the diary you actually work. That's straight profit protected.

Reviews & Reputation

AUTOMATED

100/100

Your reputation is compounding. Reviews arrive consistently, you respond to them, and new clients arrive already trusting you.

Retention & Re-engagement

AUTOMATED

100/100

You don't yet know what a client is worth over their lifetime, so there's no way to judge what any gap in this journey is actually costing you.

WHEN TO COME BACK

Re-run the diagnostic in 90 days. When your focus number has moved and held, your next cycle starts with Lead Sources & Discovery.

Next steps

Three ways to close these gaps

Everything in this report is one 90-day cycle: Bookings taken without you as the focus, with the priorities that move it. That is exactly how the LEAP sprint runs. You can run it yourself - the real question is how much of it you want to carry alone.

Option 1

Run it yourself

Included

The whole cycle is written out for you to work through in order. Be warned that it is a fair amount of work: three months of building, testing and following up around an already full diary, and the parts you're least sure about are usually the ones that slip.

Option 2

Your top priority, built for you

From £950

We take the gap that's costing you most and build the fix properly, so it runs without you remembering to do it. Any quick wins that sit alongside it are included in the build.

Option 3

LEAP - 90-Day Sprint

From £2,500 a month

The same cycle, built with you across ninety days: your focus KPI, the aligned priorities, fortnightly sessions, and the work shared rather than left to your evenings. Your number gets looked at every two weeks, which is usually what separates a plan that happens from one that doesn't.

Book your free 30-minute walkthrough

We'll go through your roadmap, agree the one thing to fix first, and look at which parts are worth building properly.

Book your call

If you'd like help putting it in place, your £97 comes off any system or partnership you book within 30 days.

About

Tulivo Digital

Jemina Semakula helps service business owners fix the journey between "I'm interested" and "I've booked again". Most of them don't have a marketing problem - they have a journey problem: enquiries that go unanswered, follow-ups that never happen, and clients who simply drift away.

The work is practical: response systems, booking that doesn't lose people, reminders that protect your diary, review engines and retention sequences - built into the business, not handed over as a document.

What we do

- Customer journey diagnostics and implementation
- AI assistants and automated client communications
- Automation and CRM builds for clinics, studios and salons
- Websites and booking journeys designed to convert
- Reputation, retention and referral systems
