Executive summary

What your answers show

Leaking

Test Profile, your customer journey scores 54 out of 100. There are significant gaps in your journey. You're winning attention and then losing people who were ready to book - which means growth is costing far more than it should.

Your strongest stage is Confirmation & Pre-Appointment at 90/100. The stage costing you most right now is Lead Nurture & Follow-Up at 37/100 - which is where this report starts.

At over £5,000 per client, one extra client a month adds around £84,000 in lifetime value over a year - the bar every recommendation in this report has to clear.

What the gaps are costing you	£53,900 a year
Enquiries that never became clients	£32,000
Enquiries that wait too long for a reply	£6,300
People who were never found	£5,300
Reviews you never asked for	£4,300
2 smaller gaps across the other stages	£6,000

Based on 6 appointments a week at £1,200 over 50 working weeks, an estimated £360,000 a year. The total above is held to 15% of that.

Your top three priorities

Priority 1

Lead Nurture & Follow-Up

37/100 · Critical gap

Follow-up depends on how busy you are, which means the busiest weeks - your best lead weeks - get the least follow-up.

Priority 2

Lead Response

22/100 · Critical gap

Same-day replies mean most enquiries sit unanswered for hours, by which point many have booked elsewhere.

Priority 3

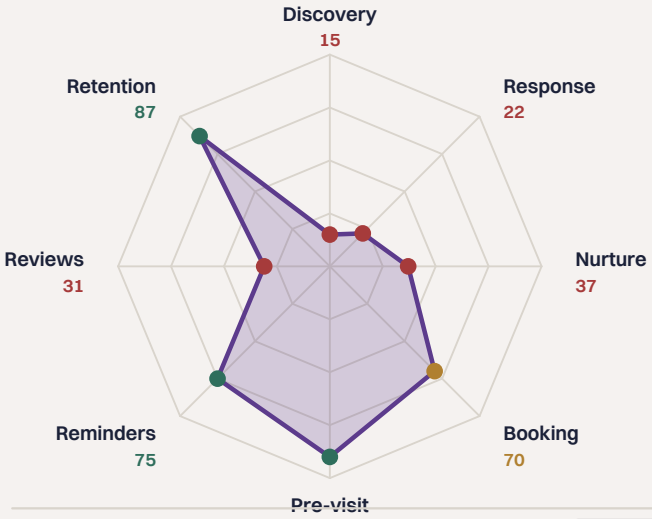

Lead Sources & Discovery

15/100 · Critical gap

Almost all your enquiries arrive through one or two routes, which makes your diary vulnerable to an algorithm change or a quiet month.

All eight stages

Your journey at a glance

How each stage is being run

AUTOMATED happens without anyone thinking about it

SYSTEMISED there is a process, but it still needs you

MANUAL depends on somebody remembering

Manual is under 50, Systemised is 50 to 74, Automated is 75 and over.

Lead Sources & Discovery

MANUAL 15/100

Almost all your enquiries arrive through one or two routes, which makes your diary vulnerable to an algorithm change or a quiet month.

Lead Response

MANUAL 22/100

Same-day replies mean most enquiries sit unanswered for hours, by which point many have booked elsewhere.

Lead Nurture & Follow-Up

MANUAL 37/100

Follow-up depends on how busy you are, which means the busiest weeks - your best lead weeks - get the least follow-up.

Booking Process

SYSTEMISED 70/100

A mix of routes means some clients get a smooth booking and others get a conversation - and the ones who need it easiest usually get the slowest route.

Confirmation & Pre-Appointment

AUTOMATED 90/100

Clients arrive knowing exactly what to expect, prepared and confident. That shows up as fewer no-shows, calmer appointments and better first impressions.

Reminders & No-Show Prevention

AUTOMATED 75/100

A 7% no-show rate means roughly one in 14 booked appointments earns nothing.

Reviews & Reputation

MANUAL 31/100

Asking in person is easily forgotten once the client leaves, so most intentions never become reviews.

Retention & Re-engagement

AUTOMATED 87/100

Only 56% of your clients are repeat, so most of your income depends on constantly finding new people.

Why this number matters most for you

Most people who don't book straight away aren't saying no, they're saying not yet - and then nobody asks again. This is the fortnight after that first reply, for everyone who went quiet. These are people who have already shown interest, so lifting this number shows up in the diary within weeks.

These are people who have already shown interest. Following up properly turns a chunk of them into clients you would otherwise never have heard from again, and it stops your diary swinging between good months and quiet ones.

How this number was chosen

Each of the eight stages owns one number. Lead Nurture & Follow-Up scored 37 out of 100, and because it carries more weight in your overall score than most, that gap is costing you more than any other single stage. So the number for this quarter is Enquiry-to-client conversion. The other priorities below were not picked for being weak on their own. They were picked because the work they need also moves Enquiry-to-client conversion, so Lead Response and Lead Sources & Discovery pull in the same direction rather than scattering your effort across eight fronts.

How to measure it

You'll track this with a simple log - page 9 shows exactly how, with a worked example.

Priority 1

Lead Nurture & Follow-Up

MANUAL 37/100

What's working

- Nothing scored strongly here yet.

The gaps

- Follow-up depends on how busy you are, which means the busiest weeks - your best lead weeks - get the least follow-up.
- One or two touches stops just before the point where most undecided enquiries actually book.
- Your nurture is partly built, so some enquiries get looked after and others don't.

What to do

PROJECT Systemise the first three touches so they happen regardless of your week, and step in personally only when someone replies.

Makes your conversion rate consistent instead of seasonal.

QUICK WIN Extend your sequence to five touches across two weeks, varying the angle each time - helpful, reassuring, then time-bound.

Captures the slower decision-makers without any extra enquiry cost.

THE NEXT LEVEL · BUILT WITH YOU

Follow-up that runs itself and knows when to stop. Each enquiry who has not booked gets a sequence shaped around what they asked about, by email, text or the channel they came in on. It stops the moment they book, and the replies that need a person come to you with the thread already read.

Tools

Start here

- Three saved messages: the day after, day three, and day seven. Send them by hand until the pattern is proven.
- A note in the diary each Friday to check who enquired this week and never heard back.

The joined-up version

An enquiry that does not book joins a sequence by itself, the sequence stops the moment they do book, and you only step in when somebody replies.

Lead Response

MANUAL 22/100

What's working

- Nothing scored strongly here yet.

The gaps

- Same-day replies mean most enquiries sit unanswered for hours, by which point many have booked elsewhere.
- Nothing happens automatically when someone enquires, so every enquiry waits for you to be free.
- Checking between clients means replies land in unpredictable bursts, and anything arriving while you're on a long job goes cold.

What to do

QUICK WIN Put a chatbot on every channel that answers price, availability and what's involved, and offers a booking link, so the enquiry is dealt with in seconds instead of being queued for later.

Turns a same-day business into a five-minute business without adding hours to your week.

QUICK WIN Switch on instant replies on Instagram and Facebook, and an automatic confirmation email on your website form. Include your prices and a booking link.

Every enquiry gets acknowledged in seconds, which stops people messaging three other businesses while they wait.

THE NEXT LEVEL · BUILT WITH YOU

An AI assistant that answers on every channel you use, at any hour, in your words. It handles price and availability, asks the one or two things you need to know, and books straight into your diary. Anything it cannot answer arrives with you already summarised, so you reply once rather than from the beginning.

Tools

Start here

- Instant replies turned on in Instagram and Facebook settings, with your prices and a booking link in them.
- An automatic reply on your website form, so nobody is left wondering whether it sent.

The joined-up version

Every channel feeds one inbox, the first reply goes out on its own with a booking link in it, and anything that needs

Lead Sources & Discovery

MANUAL 15/100

What's working

- Nothing scored strongly here yet.

The gaps

- Almost all your enquiries arrive through one or two routes, which makes your diary vulnerable to an algorithm change or a quiet month.
- You have no Google Business Profile, so you're invisible in local map results - the single biggest source of ready-to-book local enquiries.
- With 4 Google reviews, you're below the threshold where new clients feel safe choosing you over a competitor.

What to do

QUICK WIN Add one owned discovery channel you control - a fully filled Google Business Profile with services, photos and a booking link - so search traffic reaches you without paying for it.

A properly filled-out profile is one of the few things that lifts local enquiries without spending on ads.

QUICK WIN Claim and verify your Google Business Profile this week, then complete it fully: services, photos, hours, booking link.

This is the highest-return free action available to you. Expect new enquiries from people who'd never have found you otherwise.

THE NEXT LEVEL · BUILT WITH YOU

An assistant that keeps your listings current on its own: hours, services and prices the same everywhere, new photos posted without you remembering, and questions on your Google listing answered as they arrive. Every enquiry is tagged with where it came from, so you stop guessing which channel is earning its place.

Tools

Start here

- Google Business Profile, claimed and filled in properly. It is free and it is where most local searches end up.
- A single page per service on the site you already have, each one with a way to book on it.

The plan

Week by week

Everything from the roadmap, in the order to do it. Most of this moves Enquiry-to-client conversion; the response and discovery tasks protect the clients you win.

Phase one

Weeks 1-2

Switch on instant replies on Instagram	**30 minutes**	every enquiry gets a useful first reply within 15 minutes	Enquiry response time

By the end of week 2, your enquiry-to-client conversion should be around 16%.

Phase two

Weeks 3-6

TASK	TIME	DONE WHEN	MOVES
Systemise the first three touches	**1-2 days**	nobody who enquires goes a week without hearing from you	Enquiry-to-client conversion

Your log

A spreadsheet, a notes app or your booking system's client notes all work. What matters is one line per person.

DATE	NAME	WHERE THEY CAME	REPLIED WITHIN	BOOKED?	FIRST APPOINTMENT
3 Sep	Hannah B	Instagram	6 min	Yes	11 Sep
4 Sep	Priya N	Google	2 hrs	No	-
6 Sep	Dani R	Referral	11 min	Yes	19 Sep

Working out your number

> **September: 41 enquiries, 14 booked. 14 ÷ 41 = 34%.**

Count last month rather than this one, because somebody who enquired on Friday has not had a chance to book yet.

Your 10-minute Monday

1. Add last week's enquiries to the log, one line each.
2. Mark anyone who has booked since you last looked.
3. Once a month, work out the number and write it in the scoreboard below.

Next steps

Three ways to close these gaps

Everything in this report is one 90-day cycle: Enquiry-to-client conversion as the focus, with the priorities that move it. That is exactly how the LEAP sprint runs. You can run it yourself - the real question is how much of it you want to carry alone.

Option 1

Run it yourself

Included

The whole cycle is written out for you to work through in order. Be warned that it is a fair amount of work: three months of building, testing and following up around an already full diary, and the parts you're least sure about are usually the ones that slip.

Option 2

Your top priority, built for you

From £950

We take the gap that's costing you most and build the fix properly, so it runs without you remembering to do it. Any quick wins that sit alongside it are included in the build.

Option 3

LEAP - 90-Day Sprint

From £2,500 a month

The same cycle, built with you across ninety days: your focus KPI, the aligned priorities, fortnightly sessions, and the work shared rather than left to your evenings. Your number gets looked at every two weeks, which is usually what separates a plan that happens from one that doesn't.

About

Tulivo Digital

Jemina Semakula helps service business owners fix the journey between "I'm interested" and "I've booked again". Most of them don't have a marketing problem - they have a journey problem: enquiries that go unanswered, follow-ups that never happen, and clients who simply drift away.

The work is practical: response systems, booking that doesn't lose people, reminders that protect your diary, review engines and retention sequences - built into the business, not handed over as a document.

What we do

- Customer journey diagnostics and implementation
- AI assistants and automated client communications
- Automation and CRM builds for clinics, studios and salons
- Websites and booking journeys designed to convert
- Reputation, retention and referral systems
